

Exhibit and Gallery Evaluation

Clients: Natural History Museum/English Heritage

Do we always expect to get it right first time?

We have had extensive experience of evaluating exhibits both at the Natural History Museum and English Heritage - both before and after manufacture. We listen to market research and visitors and make sure that exhibits we design meet all of the objectives set for them.

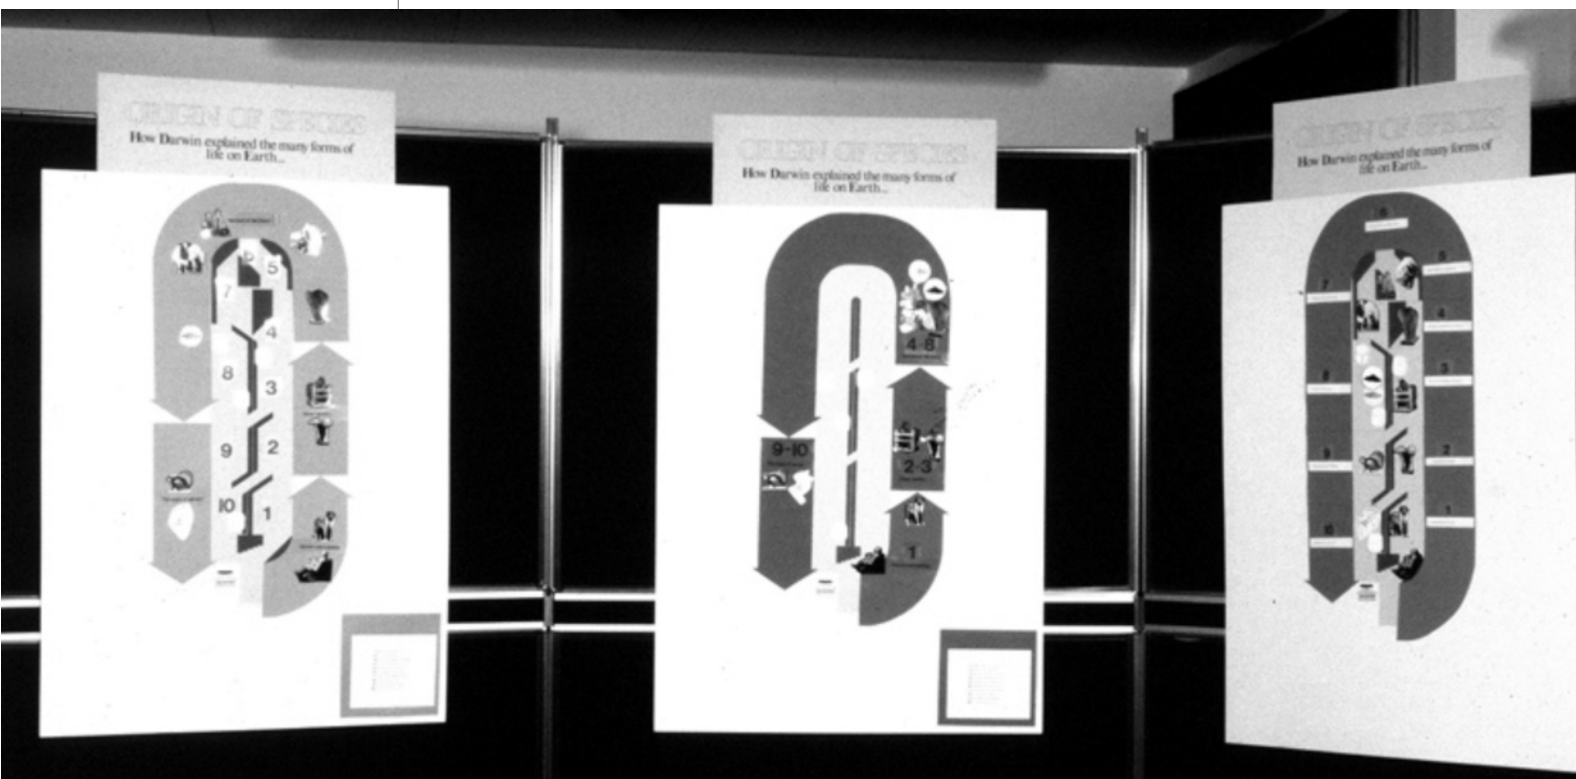

Evaluating exhibits for "Creepy Crawlies" at the Natural History Museum

Evaluating gallery orientation

GuidA Rotate & DDA

Evaluating gallery mapping at the Natural History Museum

Visitor interviews - Discovering Mammals

Ergonomic evaluation at Tudor House Museum

Tracking evaluation at Tudor House Museum
