- An Exhibition Plus project designed by Mark Magidson
- A design and production supervision contract, value £1.8 Million.
- 900 square metres.
- Working with architects Ian Richie

A major permanent exhibition designed for the Natural History Museum communicating the vital story of how ecology and looking at Earth's environment effects us all.

Land section

Main gallery vista

Revolutionary use of LCD glass created a projection screen that can go clear to reveal the view behind.

Final message - We are the sum of the diversity of earth's species
